

Figure 1 consists of two schematic diagrams, (a) and (b), illustrating a vertical pile foundation. Diagram (a) shows a pile with a diameter of 30 units. It has three horizontal sections labeled 1, 2, and 3. Diagram (b) shows a pile with a diameter of 30 units, with labels 1, 2, and 3 indicating different parts of the pile.

Technical drawing of a door assembly, showing a cross-section (left) and a front elevation (right).

Cross-section (Left):

- Overall height: 400
- Door thickness: 20
- Gap between door and frame: 15
- Frame height: 55
- Door height: 50
- Door width: 5
- Frame width: 20
- Door width: 60
- Frame width: 20
- Door width: 45
- Frame width: 15

Front Elevation (Right):

- Door height: 400
- Door width: 60
- Frame width: 20
- Door width: 45
- Frame width: 15
